

## Mathseeds Lessons

This is the heart of the **Mathseeds** world – 120 math lessons that travel through 24 exciting maps.

### Kindergarden

**Lessons 1-50** teach children fundamental number skills including recognition, number words and counting. Children will also learn to count forwards and backwards to twenty with confidence. Addition is introduced, as well as basic 2D and 3D shapes.

### Grade 1

**Lessons 51-100** teach children to count to 100, order numbers and identify ordinal numbers to 10th. Children learn to identify money - notes and coins, and investigate fractions. Subtraction, skip counting, early multiplication and division are introduced.

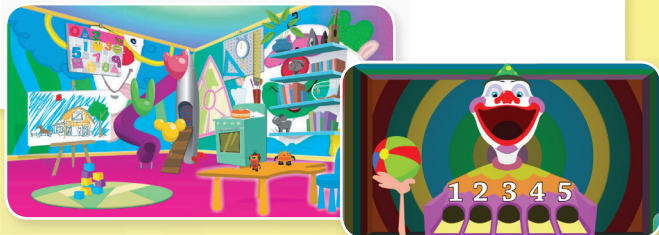

### Grade 2

**Lessons 100-140** teach children to count to 1000, identify odd and even numbers and round to the nearest 10 and 100. Children will also develop addition and subtraction strategies, and continue to practice grouping and sharing. Fractions, measurement, telling time and data are also covered.

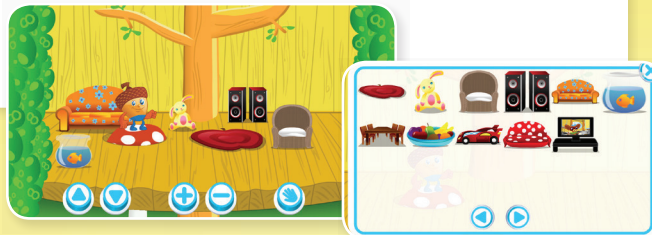

## The Playroom

Includes over 70 activities. This virtual playroom is where young children play with numbers, shapes, patterns, number books and 10 great songs.

## My Treehouse

Each child has their own treehouse which they can decorate in their own style. They can also place their lesson pets here.

## Buddy's Shop

Your child can spend their golden acorns in Buddy's shop on new looks for their avatar and decorations for their treehouse.

## My Awards

Children earn a certificate for each map they complete. These can be printed and displayed.

## My Avatar

Children can create their own acorn character with customized features and accessories.

## Arcade

Contains 8 fun math-based games that your child can play using their golden acorns.
